

# Prebona OdorControl™

**Removes odor in a minute.**

Prebona OdorControl eliminates bad smell in hotel rooms and apartments with an immediate effect. Bad smell from smoke, pets, urine, mold etc., can be eliminated after spaces in the house are treated with Prebona OdorControl.

Hi! Wow what a difference. No smoke odor. Amazing. Thank you. Best regards Jessica

*Apartment in Kinna, Sweden, became odorless after treatment with Prebona OdorControl.*

When a new tenant moved into an apartment in Kinna, Sweden, complaints were received about the smell of cigarette smoke from the previous tenant. Despite thorough cleaning, the smell did not go away. To treat the smell with ozone would have been expensive, time consuming, and inconvenient for the tenant.

The property owner decided to treat the apartment with Prebona OdorControl, which was done with a fogger. The treatment took less than an hour and the smoke odor was removed immediately to the new tenant's satisfaction.

*"Hi! Wow what a difference. No smoke odor. Amazing. Thank you. Best regards Jessica"* the tenant wrote to the property owner in a text message after the treatment of her apartment with Prebona OdorControl.
